Dromolatis is your friend and host in your **trip** to **Crete**.

The **trekking** programs are for those who want to have an unforgettable experience trip in Crete and at their way back home they will be able to say that they lived as Cretans for a while and know more about Crete's **history** than any else visitor.

The team leader will be next to you all the time, to talk you about the island's history, it's customs, the extraordinary mentality of the locals, to show you the Cretan herbs and teach you all the secrets in Cretan cuisine. That is the reason why in all the programs the participants cannot be more than ten persons, in order the team leader can give all the information to everybody.
